This Proposal is based upon the set of your requirements shared with DIVY Power team. Some reasonable practical assumptions have been considered by DIVY Power team in drafting this proposal. If you choose to alter the requirements or if any assumption stated herein need change due to site limitations, then this Proposal, including pricing, may need revision.

ABOUT DIVY POWER

DIVY POWER Pvt Ltd has over 2 decades of experience in providing safe energy solutions reliable service. We have experience of Energy Audit, Energy generation solutions, engineered to order installation & commission project delivery.

Divy is partner of leading solar companies. Some of these companies are oldest & largest solar power integrator of our country. Divy in collaboration with these companies offers "best in class" products at affordable prices. DIVY Power is having more-than a thousand satisfied customers. We cherish their blessings and continue providing state of art solution. Our growth is based on our end- to-end solution approach (concept to commissioning, delivery capability).

MISSION

Support community effort for clean air by promoting & providing solar power renewal-energy solutions for all segments of society - Household, corporate & communities institutions. Save money, improve the environment, preserve nature for better health.

VISION

Technically stable and safe solution, efficient delivery process at optimal cost to accelerate mass adoption of solar energy by all segments of our society.

COMMITMENT

Deliver end-to-end quality service at your doorstep –ever together, with you approach for every customer.

Engagement Summary

Company Name/ Customer Name	Customer_Name
Customer's Address	Customer_Address
District	Customer_District
State	Customer_state
Customer's Contact Number	Name: Customer_Name Mobile: CustomerMobile Email: Customer_email
About the Project	This is an RCC solar power generation opportunity. The plan is to install the plant on the roof.
Project Capacity + SPV Tech.	3.18KWP Mono Half Cut
Point of Contact	Name: SalespersonName Mobile: SalespersonMobile Email: SalespersonEmail
Company Details	
Address	53 Ramte Ram Road, Ghaziabad, 201001

Date of Proposal	28/12/2023
Proposal No. Version	DIVY-RT-OFFER -52192 -V01

Responsibility Matrix

Description	Scope
Site survey layout, its engineering drawing & documentation.	DIVY
Supply of Material.	DIVY
Unloading of equipment's at site & its storage, Installation & Commissioning.	DIVY (A Safe Storage Space at site for material will be provided by Customer)
Worker compensation and employer's liability insurance, Project insurance.	DIVY
Project asset insurance post commissioning.	Customer's decision, Divy team will support if needed. Premium payable by customer.
Mechanical Installation, its assembly, fixing and alignment.	DIVY
Electrical Installation & testing of AC & DC cable with LT Panels, remote monitoring system, if required & synchronization of the solar system to grid (as per accepted work scope)	DIVY
Testing and commissioning of Solar power Plant and Handing over along with training to the customer's nominated executive.	DIVY
Approval from Electrical Inspectorate (CEIG)	Customer Team / DIVY
Availability and clear title of Roof / Land-marked and all type of clearance from any dept. For solar power plant, with a motor able road till project site boundary.	Customer Team
PPA to be signed with the Electricity Board by your team. <i>Net Metering along with fees & related expenses not part of this proposal.</i> <i>Divy team can provide need-based assistance for your team to prepare the documents.</i>	Customer Team
Proper storage of material and temporary stay of workforce to install the solar system.	Customer Team / DIVY
Water at a pressure of 6-8 bar at 120 TDS on the on the roof level for each of the roofs for cleaning. Trimming of trees if any in the work area/ neighborhood to avoid shadow on solar plantand taking approval, if any form concerned departments.	Customer Team
Evacuation distance is considered from solar power plant's inverter to the LT panel, has been considered equal to or less than 20 meters. In case the distance is more than 20 meters, it will be billed separately over and above the quoted price in this proposal.	Customer Team / DIVY

Technical & Commercial Details

S.N.	Product / Service Summary	Details
(i)	Type of Roof Top Solar System	OnGrid
(ii)	Type of Roof	RCC Assumed that the customer has assessed the structure load-bearing suitability of the designated roof.
(iii)	System Capacity	3.18
A.	Basic Plant configuration	Amount
(i)	Solar Photovoltaic (Proposed Size (+-15%))	Brand: TATA Type: Mono Half Cut SPV Capacity: 530
(ii)	Inverter	Brand: SOLIS Type: Single Inverter Capacity: 3
(iii)	ACDB, DCDB,	As per approved by DiVy
(iv)	DC Cable, fittings, BOS	As per approved by DiVy
(iv)	Earthing (maintenance Free Earthing)	As per approved by DiVy
(v)	Lightening Arrester – Conventional	As per approved by DiVy
(vi)	AC Cable (20 Meters) Earthing & LA cable (50 meters)	As per approved by DiVy
B.	Structure	Offer as per site condition (this may vary as per roof location)
	Type	Super structure
		42930
C.	Service	Installation charge, Transportation charge, Labor charge. (Loading, Unloading, and shifting to roof)
		7950
D. (I)	Cable Management	Conduiting/ Trenching
		By Customer
(II)	Net metering	Meter purchase/ paperwork/ liasioning / Govt. fees Paper uploading facilitate by Divy Power
		By Customer
(III)	Civil work	As per T&C
		By Customer
E.	Extra Supplies/ Services Required as per site condition	
	GST (13.8%) Extra	
	Total Proposed Cost	Sum of (A+C) Sum of (B)
		179670 42930
*This proposal is valid for 15 days from the date of this document. * GST rates as applicable on the date of billing will be applicable		

General Terms & Conditions

PRICE: The price quoted in this Proposal is inclusive of design, manufacturing, sourcing, testing, supply, installation & commissioning, as per the bill of materials & ratings submitted by DIVY POWER. Any change in scope of work or addition to the bill of materials and/or ratings or any variation, whatsoever, shall be charged extra to Customer.

VALIDITY OF OFFER: The price quoted by DIVY Power along with this Proposal is valid for fifteen (15) days from such communication to customer and there after the same shall be subject to reconfirmation by DIVY Power Solar.

TAXES, DUTIES AND RATES: DIVY at its sole discretion shall have the liberty to raise invoices from any location in India. All the applicable taxes shall be payable by the Customer at actual.

INCLUSION OF EXCLUDED ITEMS: Any items & Service not mentioned in the bill of material / in contract shall be charged extra and will be in the customer's account.

ACCESS AND PERMITS: The customer shall ensure the accuracy of all information and/or data to be supplied by the customer and shall be responsible for acquiring and providing legal and physical possession of the site and access there to, for preparation and maintenance of proper access roads to, and provide the right of way for, the site, and for providing possession of and access to all other areas reasonably required for the proper execution of the construction work.

DELIVERY & HANDOVER: DIVY Power shall complete the project in the given time as discussed from date acceptance of order by DIVY if work is not interrupted due to any changes/ demand/ delay of payment.

DEEMED EXPORT OF POWER: The Project shall be termed as commissioned when DIVY Power evacuates the power generated to Customer's grid. However, in case where DIVY Power has completed its duties as per the scope of duties mentioned in the Purchase Order, and the Project cannot be commissioned due to any act/inaction on the part of Customer, or due to unavailability of Customer grid, then the Project shall be deemed to be commissioned and DIVY Power shall be deemed to have completed its part of obligations under the Purchase Order.

INTERRUPTIONS IN WORK: The Customer must not interrupt the work, and/or shall abstain from any act or permission of which it can reasonably be expected that it may delay the works or make the works more difficult and or expensive for DIVY Power, in such circumstances the effective amount for such delay or interruption or any demand to change will be in account of customer.

WARRANTY: The solar power plant carries a FIVE (5) year warranty against any manufacturing defects on behalf of component manufacturer.

Solar photovoltaic modules carry a performance warranty against excess of 20% degradation in TWENTY-FIVE (25) years as per existing warranty policy of manufacturer. For other equipment and batteries (if part of solution) duration will be as per OEM policy.

Inverter warranty carries 5 years.

SECURITY & SAFETY: On delivery of supplies to Customer's site in good condition, Customer shall be responsible for safety & security of the material still handing over of the same to DIVY Power designated personnel for installation. In case there are public disturbances at site which are not exclusively attributable to DIVY Power, Customer shall resolve the same at its own risk & cost, for smooth execution of the project by DIVY Power.

STRUCTURAL WORK:

RCC Roof-

Non- Puncture solution- The structure mounts on fabricated civil cubicles on roof, this is limited to a normal height structure parallel to parapet walls of the roof. Divy limits itself to work as per customers request & assumed that customer has assessed the structure load bearing suitability of the designated roof. In any case any damage or leakage/ repair or anything are not exclusively attributable to DIVY POWER.

Puncture solution- The structure gets punctured in roof through anchor fasteners. DIVY deemed assume that customer has assessed the designated roof's stability and strength for the same. Divy limits itself to work as per customers request & assumed that customer has assessed the structure load bearing suitability of the designated roof. In any case any damage or leakage/ repair or anything are not exclusively attributable to DIVY POWER.

Tin Shed-

The structure gets penetrated with rivets/ screw with metal roof, DIVY deemed assume that customer has assessed the designated roof's stability and strength for the same. Divy limits itself to work as per customers request & assumed that customer has assessed the structure load bearing suitability of the designated roof. In any case any damage or leakage/ repair or anything are not exclusively attributable to DIVY POWER.

Civil Work-

DIVY always recommends execute/ supervising the civil work on RCC roof wherever it is needed through customer only to take care quality in all aspects. DIVY limits itself to work as per customers request & assumed that customer has assessed the structure load bearing suitability of the designated roof. In any case any damage or leakage/ repair or anything are not exclusively attributable to DIVY POWER.

LIMITATION OF LIABILITY: Not with standing anything contained in this Proposal, its appendices, any offer, or order to the contrary, with respect to any and all claims arising out of the performance or non-performance of obligations under this Proposal or resultant agreement or purchase orders, whether arising in contract, tort, warranty, strict liability or otherwise, total liability of DIVY POWER shall not exceed beyond 2% of the total contract value received from Customer. Not with standing anything contained anywhere else in this proposal, or in the resultant Agreement, or anywhere else, in present or in future, in no event shall DIVY POWER be liable, whether in contract, tort or otherwise, to the Customer for special, indirect or consequential loss or damage (such as, not exclusively, loss of production, loss of reputation, loss of income, loss of profit, etc.)

INDEMNIFICATION: Customer shall fully Indemnify and hold harmless DIVY Power and its affiliates, associates, directors and employees from and against, any and all losses, costs, damages, injuries, liabilities, claims and causes of action, including without limitation arising out of or resulting from claims by third parties, acts, omissions or breach of any of the Customer's affiliates, suppliers, employees, agents or contractors in the performance of Customer's obligations under this Proposal or any resultant Agreement or otherwise arising out of the solar power system or its usage.

INSURANCE: Customer shall cover insurance for transit and storage up to and atsite. Else Divy can arrange an chargeable basis.

PUBLICITY RIGHTS: The Customer agrees and gives its irrevocable and unconditional consent to DIVY POWER to issue any press release or announcement relating to this Proposal, or any resultant Agreement, or use the data, photographs, designs, etc. of the solar power plant for its publicity and/or marketing activities or use the same for publication anywhere. DIVY POWER understands and agrees that no such usage shall be in a manner defamatory to the Customer.

ARBITRATION: Any dispute, including claims seeking redress or asserting rights under applicable law, shall, be resolved and finally settled in accordance with the provisions of the Arbitration and Conciliation Act, 1996, as may be amended from time to time or its re-enactment. The arbitral tribunal shall be composed of two arbitrators to be appointed by each of the parties and the third arbitrator shall be appointed by the arbitrators appointed by the parties and for such arbitration, the seat of arbitration shall be in Ghaziabad, UP, India. All proceedings of arbitration shall be held in English.

GOVERNING LAW AND JURISDICTION: All questions concerning the construction, validity and interpretation of this Proposal or any resultant Agreement will be governed by the laws of India, and the courts at Ghaziabad, India shall have exclusive jurisdiction with respect to any dispute that occurs hereof. No remedy described in this Proposal, or any resultant Agreement shall in any way limit the parties' remedies available at law, in equity or otherwise in relation to any breach or threatened breach of the terms and condition of the Proposal by any defaulting party, and any party may seek a restrictive injunction from an appropriate court of law to safeguard its interests.

Together we can

Assuring you best service always.

Thanking you for providing us an opportunity

On Behalf of

Team Divy Power

SOLAR PERGOLA: A suggestion by Divy

- A pergola is an Iron/ wooden made garden feature traditionally used to provide a shaded walkway, passageway, or seating area in a garden.
- A solar panel pergola is essentially a pergola with solar panels on top. The structure is one of the best decoration ideas for your outdoor space and is something simple yet provides amazing benefits.
- A pergola is a specific outdoor structure type that includes two main parts – supporting columns and the roofing grid that includes beams and rafters. The roofing grid itself might be left open or closed, depending on the owner's preferences.
- The usual pergola shape is a square or a rectangular roof that's supported by a set of vertical posts. Pergola's roof can be either fully covered or partially covered, there's no limitation.
